

Brake Service 60,000 KM - 3 YEARS

Most Vehicles

"When it comes to safety nothing is more important than your brakes. Since the deterioration of the brake system is so gradual, you're less likely to notice a problem until it is too late"

"Brake fluid naturally attracts moisture. If the moisture levels in your fluid become too high, brake failure may occur during panic stops, downhill braking or stop-n-go driving"

Brake Fluid Flush

Install Wynn's X-Tend Super Heavy Duty Brake Fluid

Utilizing Wynn's BrakeTech flush equipment we will:

- ◆ Perform a complete evacuation of contaminated fluid
- ◆ Replenish system with fresh brake fluid

Superior Braking and Reliability

Wynn's X-Tend brake fluid meets vehicle manufacturers specifications
