

Oil Service

EVERY 5,000 KM

Most Vehicles

" Today's vehicles operate at higher temperatures and higher RPM's than ever before. This creates an extremely harsh environment for your motor oil."

" Extra protection is always a good idea."

Before

After

Oil, Lube and Filter

Drain / fill the oil and lubricate the chassis.

Oil, Lube, Filter and Internal Engine Clean

Install Wynn's X-Tend Oil System Cleaner

every 20,000 km

Harmful deposits are removed and drained away with the old oil.

Oil, Lube, Filter, Internal Engine Clean and Ultra Protection Pack

Install Wynn's X-Tend Oil System Cleaner

Install Wynn's X-Tend Ultra Supreme

After the engine has been cleaned internally, Wynn's X-Tend Ultra Supreme is installed with new oil. This product will provide unique properties to regular motor oil resulting in :

- Reduced engine wear
- Reduced sludge formation
- Extreme temperature protection
- Improved fuel economy
- Reduced oil oxidation
- Protection against acid
- Reduced high temp varnish build-up
- Improved cold start abilities
